We have, by way of St Louis, some further news from Utah. The accounts are somewhat conflicting, but all go to confirm the previous reports that the Mormons would submit to the U. S. authorities.

A very heavy atorm occcurred in New York on Monday, destroying several buildings and e weing the loss of neveral lives.

The New York market, yesterday, was five cents higher for firms, and steady for wheat, with considerable sales. In our own market, with diminished receipts, transactions were moderate and the market rather houry.

The weather yesterday, as for a work pant, was delightful, and farmers rejoice in the prospect of abundant crops.

### The New Assessment Law .-- Opinion

To the Assessors of the City of Milwaukes: GENTLEMEN: -- By a resolution of the Board of Aldermen, passed June 14, 1853, I am instructed to furnish you with a written opinion upon the question whether the assessment law, passed by the late Legislature, is, or is not, applicable to the City of Milwaukee, under the rule of con-

I have taken considerable pains to form a coroct opinion upon the subject, and in submitting or your consideration the result which I have arrived at, I dosiro to state that the opinion which I now express is consistent with that of everal of our most respectable lawyers.

of the charter.

Section 25, of Chapter 10, of City Charter, provides that "no general law of this State conravening the provisions of this act, shall be considered as repealing, amounting or modifying the same, unless such purpose be expressly not forth n such law."

The first question which arese for consideral tion, was whother the new assessment law doos contenuence the provisions of our Oity Charter, and upon a careful comparison of the two acts, I in satisfied that such is the fact. It is to be observed however, that the City Charter relates only to the manner of assessing, levying and collecting taxes, and not to the subjects of tax-

So far therefore as the new law makes alterations in the various kinds of property, subject to tuxation, either in making taxable what was not so before, or in exerepting from taxation what heretofore has been taxable, it does apply to this city of Milwaukee and must govern you in your assessment. But where the law centravenes the provisions of the charter respecting the manner of making the assessment, it his no application whatever to the inhabitants of this

The second question which presented itself to my mind, was how the subject was affected by the constitutional provision that "the rule of taxation shall be uniform." As regards this question, I would say that as I understand this provision, it signifies that the subjects and rate of axation shall be the same and equal in all parts of the State, however different the manner of assessing, levying and collecting the tax in different localities may be. The limits of a communication like this are necessarily too confined o admit of any extended exposition of the various conflicting provisions of the two acts, or of the many new questions which have embarrassed me in ferming my opinion. I have therefore only given you the result of my examination and I respectfully submit the same.

CITY IMPROVEMENTS-SECOND WARD.-We give, this morning, the report from the City Land Office of the improvements in progress in the Second Ward. They number thirty-six, at an aggregate cost of over seventy thousand dollars. This is no guess work, but the result of a careful and accurate count. We shall follow this up, from day to day, with the reports from the other Wards. It is to be observed, in regard to the Second Ward, that two other Wards, the Sixth and Ninth, have been formed out of the ort, inal questions seemed to be the order, Mr. Humann Second, and that the amount of building going on in these two is very considerable. These figures, we think, will amply satisfy our readers that Milwaukes is "going shoad," in spite of the hard times.

An ordinance authorizing the second ward, Market House Association to creet a market house on the public square in the Second Ward, in front of block 52, under certain restrictions, was presented by Mr. Wasto. Mr. Hadley opposed the ordinance, not because, he assured the Board, that he had any objections to the establishment of a market house in the Second Ward, but because he beleived that the health of the people in that portion of city required, that the little equare, the only breathing spot they had, should be preserved sacred for the purpose to which it was designed, and concluded by of-fering a resolution that the ordinance be laid upon the table until the next meeting, which as adopted without opposition.

In fact this was a more correction, and not, strictly spoaking, an assault and battery; but the law does not allow this sort of corrected and fined, though its broad to be corrected and fined, though the Court would not have fixed the penalty at more than 6 cents had he the power to do so. J. F. Nugont, W. J. McClane, Frederick Buckhardt, William Buckhardt and George Oakley, charged with being disorderly, were discharged by the direction of the Clity Attorney. Charles Penkan, for fast driving on the street, was fined \$5 and costs. John Barry, charged with larceny from the house of C. De Lorme, was committed for examination. Sarah Oakley, convicted of disorderly conducts, breaking windows, &c., was fined \$20 and costs. The Cleveland Wool Depot.

### Washington Matters.

Washington, June 22.
Sufficient intelligence has been received to leave no doubt that Capt. Marcy's command has reached Cump Scott with safety. It was the intention of Gov. Cumming, when last heard from; to proceed at once to an open-trade with the valley.

Many of the Mormons were understood to

### WEDNESDAY MORNING, JUNE 23

A Just Rebuke—The "Corruptionists" of 1956. Alluding to the persistent efforts of the News, Argus and other unscrupulous party hacks, to whitewash their own friends while denouncing the Republican Members of the Legislature of 1856 who were mixed up in the Land Grant business, the Horicon Argus, a leading and influential Democratic paper, says:

CORRUPTION AXONG LEGISLATORS.-Wo are not well pleased to see some of our. Democratic friends insisting that Republican members of the Legislature of 1856 received the larger portion of corruption money. Such was not the case, to the shaue of Democrate be it said. For one we cannot sanction such a betrayal of trust, he it in one party or the other. We claim to be a Dem-orat, but never will shield meaness in any one, be he with or against us. Neither party has much to bring of in that respect, so the less said about it the better.

We have already shown from the Record that where one Republican State Officer was Implies ted in the "Corruptions" of 1856, Four Dome cratic State Officers were equally guilty; that where three Republican Senators accepted bonds or stock from the La Crosse Company, Twatva Democratic Senstors were alike compliant; that where fifteen Republican Assemblyman received "pecuniary compliments," THERTY EIGHT Damo cractic Assemblymen pocketed similar affronts that the parties who so liberally dispensed these gratuities were all Democrate; and that the yobetweens, who arranged the delicate details and held the stakes, were those "distinguished" Democrate, ex-Governor Bararow and A. Hyard

Those facts, which are all of record and which Democratic papers, while their columns teem with general donuciations of the corrupt Legislature of 1856, and with special invectives against the handful of Republicans who we caught in the company of the large army of Democrats on that occasion. No wonder that the Horicon Arous, which makes pretensions to being a fair and truthful sheet, is disgusted with the evident hypocrisy and gross unfairness of some of its political associates on this subject, and openly rebukes them for shielding in a friend what they so vehemently condomn in an enemy. The Horicon editor is sharp enough to see, if the Madison Argus and Milwaukee Nows are not, that the people will put no faith in lusders thus blind of one eye and deaf of one

#### A Day after the Fair.

The Madison Journal, of Monday, has a charm ingly good tempored article, headed "Chiengo and Milwaukee," the main purport of which is to exalt the former city and disparage the latter, and the incidental object to rejoice over that peculiar arrangement of the Milwaukco and Mississippi Railroad trains, which the company have just very wisely abandened. The Journal will from the Daily News of this city, announcing the no doubt be somewhat disappointed to learn that confirmation by the U. S. Senato, of B. B. CARY, its sulogies upon the defunct arrangement came as P. M. for Racine. This is a severe blow and too late, and that its efforts to persuade "ult a sore disappointment to the leading Democrats places on the M. & M. R. R., West of Januarille," of Racine, who put faith in Mr. BUCHANAR's prothat they can "visit and do business" in Chicago | mises of "Rotation in Office." That with all the "with greater convenience and cheapness" than | endorsements our Member, Mr. WARREN, receivat Milwaukee, is so much labor lost. At the ed, Dr. Cany should again obtain the office rame time we must express our acknowledgments | which he has held for over 18 years, out of the to the Journal for so plainly showing its hand in this matter, and giving Milwaukee so distinctly insture, and they swear "awful." It is now said to understand that it has nothing to expect from Madison. THE TRIED CONGRESSIONAL DISTRICT.-Referring to the list published in the News, somedays since, of the Democratic candidates for a Congressional nomination in the Third District, the Ozaukoo Advertiser Bays :

The News has not yot learned that there is a cancidate in Ozankoe or Washington County.—
It seems somewhat strange that these counties, the most democration in the District, and which have always rolled up the largest majorities for the democratio nominees, should not have a candidate in the field. We are not as yet authorized to moniton the page of any smillest in the standard of the standard o ised to moniton the mame of any sandidate in this county, but it is more than probable that Ozsukec will prevent a caudidate in the convention, and one that has a stronger claims than any yet monitoned, for the nomination.

A LARE WITHOUT AN OUTLET IN MARITHON COUNTY.—There is quite a beautiful body of drystil water about five miles in circumference in the dense forest of Marathon county, which is noted particularly.

So far as Washington County is concerned. we learn that ex-Speaker FRED. Hown is a candidate for the nomination, and with fair prospects of success. He stands on the Dougles platform, and is utterly opposed to the Lecompton Villainy. Mr. FITZGERALD, of Oshkosh, another prominent candidate, occupies a similar position. Mr. H. C. The Court Assessment Blanks.—Where republican papers are printed at the County Scats of republican counties, and have a friend as Clork of the Board of Supervisors, they feel unpleasantly about the assessment blanks. The only reason is that they miss a chance to swindle the counties cut of about a thousand dollars apiece, that we do for about \$200 apiece.

In addition to this, there are two good jobs of assessment blanks to be printed in the counties for which the county papers will average about \$600 apiece. But they are not estified with this—they want to steal a great deal more.

> St. Paul, Minnesota, May 14, '58. J. Thompson, Esq., See'y of the Interior, Washington:
> Hon. AND DEAR SIR:—We the undersigned, clargymen of the Protestant Espiscopal Church, feeling deeply the afflicted condition of the Indian races of our country, and more particularly that of the Chippowas of Minnesots, desire to represent their cause to your serious considera-tion. When, six years since, an Indian Mission amongst the Chippewas was begun, by the Prot-estant Episcopal Church, these Indians were in full possession of their original territory. North of Fort Ripley and West of the Mississippi

> River.
> They were not, indeed, at that time free from the contaminating influences of our white border population, especially as regards free-water, but it was difficult for them to obtain it, at least as compared with their present facility of doing so, at the wayding places better them. as the vending places being then south of the Fort: whereas, for three y are past, since the last treaty, the sellers of whiskey have become emboldened, and have passed on to the Indian side of the Fort, insomuch that the natives have now every opportunity afforded them for satisfying their thirst for fire-water, at points convenithe observation of the military post.
>
> The agent for these Indiane has, from some cause, been entirely regardless of this traffic, for the period before named. Hence, every constant of the period before named.

ery Iudian is left perfectly helpless in this pow-erful temptation of poor human nature. The restrictions promised the Indians at the time of the treaty, and confirmed by stringent probibitory and penal laws of the general government, have been utterly put aside or left inoporative, by every civil, military, and other power of the by every civil, military, and other power of the United States, in every practical form. The Indian is, therefore, left helpless under such temptation, because he has nothing adequate given him by our nation, to fortify him against them. In his wild state, sir, he has not had the temptation, and, honce, has never made any prevision to most the difficulty. Let us make the case of the Indian our own, what if all, our laws restricting the sale and use of intoxicating diriks among our own, over the every sweet and the sale out own. drinks among our own race were swopt away forthwith, and all religious notives, forbidding it taken away? What would become of us in one

taken away? What would become of us in one generation?
We do, therefore, most earnestly appeal to you, honorable and dear sir, in behalf of this par race, to know whether all is vain, as regards the due and just fulfillment of our nation's treaties with this people. It is not a thing in which the Indian nature is slone at fault, although it is undoubtedly true, that the wild, untamed, and savage spirit delights more than ours, in that which excites violently the innermon. Look at the dress of our city repulation. man. Look at the dress of our city population, and you can, in their degradation and vice, even under the repressive power of law and public opinion, see faintly the condition of the red man,

orthous, see many the condition of the red man, oxposed to the like temptations, and totally free from these wholesome restraints.

Let us not, then, condemn the Indian; at least, not untit we, the superior stace, have ful-illed our part of the treaties. It resolves itself into a matter of simple justice, on our part, to wards the weaker party. We have pledged our faith to the Indian, not only to furnish certain helps, and make gifts, but to keep back certain evils of our own nation, about which, until they come into contact with us, they knew nothing; come into contact with us, they knew nothing; and hence, they had no safeguards against no evil as ruinous to them as fire and the sword.

The most complete license to buy and, drink, in any quantity—from a glass of whisky, at the bar of the trader, to the purchase of five or tenigalious to carry away—is now given to the whole nation of the Chippewas. This whisky is, moreover, adulterated to the most, awful extentingo—with a gampletaly to madden and actions. over, adulterated to the most awini extent, inso-much as completely to madden and suddenly destroy those who drink it. As an instance in hand: recently, a chief of the Pillagar band, Nine Fingers by name, one of the best

thus secretly infused into the alcohol.

The abandonment of the Mission and Indus trial School among the Leech Lake (Kesshgah Indians, was occasioned by means of fire-water, which led the Indians, who had not been brough under the Mission's care, to altempt that which under other circumstances, they would not have

dared to do.

And now, honorable and dear sir, from a recont visit which the undersigned have paid to
the Mission establishment amongst the Mississippi Chippewas, at Gull Lake (St. Odlumbis,) we
led constrained to appeal to the Indian authorileel constrained to appeal to the Indian authorities at Washington, to abate this fatal evil.

The Chippowa has his enemy, the Sioux, who stealthily perpetrates his massacro; but those can be, to a large degree, kept at a distance, by the terror of the scasping-knife, in revenge—but the worse enemy, the fire-water, is a flame in their boscons, continually consuming them, and unless this fire be put out by our government, as by treaty is pledged, and as it is fully competent to do, the result must need be the utter extinction of this race. At one wist [May, 1868] to the mission, we met, between Crow Wing and Gull Lake, a diatunce of but fifteen miss, several gangs of Indians, from five to thirty strong mee. gange of Indians, from five to thirty strong mon, with five and ten gallon kegs on their backs, going into the ceded country on the Indian side of Fort Ripley, to have them filled with whiskey. Barrels of this poison are here sold in open day, the year round, and for three years past, there has not been the least restraint on the part of the United States authorities.

We do therefore honorable and dear sir, make through you, a strong appeal against the further violation of our treaty stiputations with our did dians. Often have the well-meaning Indians appealed to their missionaries against the intro-duction and sale of fire-water among the people by the whites. But what can they do? "We compel the Indian to remain Indian, even when he becomes civilized. We furnish that with neither laws or executive of any kind, where-with to defend himself or be defineded. We have with to defend himself or be defended. We buy bis lands by treaty, and yet leave entirely un-fulfilled one great feature of overy treaty, and a provision of our national code of laws for the protection of even non-party Indians, viz: the

hristianizing the race.
The divine law, through the Church, is not and color aw, through the Univer, is not sufficient for any intion of itself. There is a human law, also of God's appointment, though after no particular model, which is likewise necessary for all nations. The Indian has the letter in his wild state, but insufficient for a condition in which he is brought in contact with some of the most degrading and regions where some of the most degrading and ruinons vices of the white man. Then, in addition to Christiani-ty, the perfection of divine law, he needs the code of human law, such as is found amongst civilized natious. It is because of this lack that the nation has no power to resist, effectually, the destroying agency of fire-water. It is in this that we carnestly implore, as citizens as well as that we carnestly implore, as chizens as well as Christians, the nation's observance of her treaties with this people. She can keep them in either of two ways, viz: in governing her own citizens, wherever found, or in giving to the Indian the means (civilly and socially, while the Church does it religiously) for resisting the temptation. These means will be in human law administrative and executive, added unto the divine code, and thereby nutring the Indian late.

The MacChain E is of recent invention, and surpasses all others in use for its perfections as a thorough Separator and Securer. It has given entire satisfaction in New York, Pennsylvania and other States where it has been introduced, and we are couldn't it is settly adapted to the cleaning of Western grain than any other/eyer introduced into this State. It is fire proof, not liablet or got not of repair, requires but intil a power to tran it and the couring splinder so constructed as to ready it un accountant to be remeved for years. We respectfully invite all Western Millers to give us a cash, and examinator machine, as the jear State Foundry.

Before an examination with the Remean Millers of the poundry of the Pennsylvania. ring the present year advantageously, and contract to the buildings can be made on better terms than ever before, therefore,

IMPORTANT TO THE PUBLIC.

The attention of the nearly of this comments in a second street, and the attention of the nearly of this comments in a second street. THE SUBSCIENCE Would respectfully solicit the attention of the people of this community to a Roofing Compound, FIRE AND WATER PROOF ROOFING

For proof of which he refers to a long and 'respectable list of certificaties, a few of which are given below, and plenty of others to be seen at the office of the subscriber. Also would refer to men who have tested it in more than one hundred of the principul cities and towns in New York and Massachusetts. The patentee of the above Reofing is sequisined with the ingredients used, making, application, &c., of every Patent Roofing, in the United States, and from FIVE YEAR'S EXPERIENCE,

and close application to the business—experimenting with from one to two hundred different compounds in a year—be has no hesitation in taking the trond ground that there is not even a positivity that any of them (save the above) will stead the The Changing Climate of this Country. Old shirate roofs, and rust eater tin and (metal roofs made perfectly acund and durable.

Warranted not to affect THE QUALITY OF THE WATER. READ! READ! Some Testimony not bought, and no names inserted without the knowledge and cheerful consent of the parties. Newburgh, April 10th, 1858.

St. John B. Sanborn, Esq.,

Bes Fir:—In reply to your request, asking my opinion with regard to the Composition Rooding patential by C. B. Milks, I have to state that I have examined the maiter correlate, having whiched its application in various places and in some very difficult ones, which it has been impossible to stop the leskage of with any other known compound. I have not healthing in pronouncies, so far as its water Proof qualities are concerned, essentially the thing, and at to its Direct Proof qualities, having examined the roofs of Homer Ramadell, Esq. I find the roof, boards completely charred through, and at the same time the Composition remains entirely uninoched by the fire, aithough constantly covered with falling brands and cinders. I therefore consider it seemitally both a Fire and Water Proof substance, and having had considerable experience with other Compositions for Roofing purposes, (particularly with West's patent,) I have no hesitation in pronouncing it the very best thing Roofing purposes.

Having folk an interest in the sublected Mastin Roof.

Raying feit an interest in the subject of Mastic Roofing, and knowing that the preparations hitherto used have failed to stand the winters of, this eliment, we were laduced in Septembir last to apply, as an experiment, some of C. R. Nilks' Mastic Roofing on a Tin roof adjoining our office, (said roof. being much exposed to the action of the weather, and also the rain and snow from another roof.) we find at this date asid roofing in the most perfect state, and believe the griad question of how does it stand the "winter" is settled, and that C. R. Milks' Roofing must prevail over all other Mastic Roofing in ase.

We have to note rather a depression in the produce market to-day, with comparatively little doing. The clear market opened dult this morning, and has continned so all day, without any material change in prices.

There appears to be an uncertainty in the minds of buyers as to how the market is going to range, and they consequently operate with considerable cure.
